

MAINTENANCE & DURABILITY

Cotrack mobile cone crushers are designed to be durable with long-life servicing due to the robust frame and the wear-resistant components. Parts subject to wear are easily accessible and replaceable. Moreover, we make sure that maintenance to be totally safe and secure.

HIGH CAPACITY & FINE SHAPE

Simplicity has always been key. Simplifying the use of a complex machine is what the Scaltrack mobile scalping screen is about. Controls are done through a wireless remote or with cables. Turning on the mobile scalping screen is as easy as pushing the start button.

COST-EFFECTIVENESS

Considering the low fuel consumption and the low need for maintenance, these machines operate at the lowest overall cost possible. Moreover, its high uninterrupted uptime and high capacity crushing make these mobile crushers very profitable.

COTRACK MOBILE CONE CRUSHER BPC 100

CAN EASILY BE COMBINED WITH OTHER BORATAS MOBILE MACHINES AS TANDEM WORKING.

BPC 100

The Boratas® Mobile Cone Crusher BPC100 from Cotrack series is able to provide large reduction ratios and an excellent cubical shape at high output capacity. They are used in various applications such as aggregate crushing, mining, and recycling. Moreover, this machine is ideal for contractors or aggregate producers working in urban regions thanks to its compactness, mobility, and dust reduction system.

Using Sandvik cone crushers, these units are high-performing crushers able to crush medium to hard natural stones, even those with abrasive varieties.

Cotrack hybrid mobile cone crushers come with multiple sizes and features and are supplied as standard or customized versions.

Features & Benefits

- Featuring highly efficient Sandvik CH430 cone crusher
- Operates on electricity or diesel
- Hydraulically Adjustable bunker feeder
- Wireless remote control
- PLC control system
- Drum motors for conveyors
- Belt feeder

• Control panel

Based on PLC system, LCD touch screen shows all details which are running at the moment.

• Remote Control

Walking control, speed of the feeding belt, and functionality of components can be adjusted

• Hybrid Drive

Easy plug-in socket for switching from diesel to electric drive of a sudden.

Optional Features

- Metal separator magnet
- Hardox Armoured Bunker
- Automatic lubrication system for conveyors
- Dust-reduction system
- Medium fine cone crusher
- Apron feeder
- Extra coarse cone crusher

Side Liners

- 10mm HARDOX 450
- Bolted system
- Easy replacement

Metal Detector

- Magnetic detector for clean material

Feeding Belt

- Width: 600 mm
- Drum motor

Cone Crusher

- CH430 EC Sandvic
- Capacity: 100-180 tph
- Automation: ASRI included

Wireless Control

- Easy and safe control over all individual parts as well as crawling-tracks

Hybrid Power

- Fully hybrid
- Can perform with diesel or simply plugged into electricity

Hopper

- Hydraulically adjustable
- Max. Feed. Size: 185mm

Crawling Tracks

- Width: 500 mm
- Twin Speed Mode
- Heavy Duty Type

Power & PLC Control

- Full control via PLC panel including touch screen
- Dual power

Main Conveyor

- Width: 1000 mm
- Drum motor
- U profile chassis
